ROBOT×LASERBEAM

BY TADATOSHI FUJIMAKI

Robato Hatohara, a stupidly serious, creepily thorough and socially clueless high school boy, appears to have no interest in anything—including joining his friend Tomoya in the golf club. But when it's discovered that his perfect accuracy and calculations enable him to golf like a practiced professional, will he be able to escape playing golf?

PREVIOUSLY IN *ROBOT×LASERBEAM*:

After Robato Hatohara demonstrates his perfect swing, famous high school golfer Yozan Miura declares him to be his rival! But for their rivalry to actually grow, Robo needs to join the golf club and become a regular. A second-year student and regular, Rion Osanai, takes Robo under his wing to accomplish this goal and help him get a score in the seventies before the training camp. Robo survives the athletic training for the team, but his score isn't good enough to compete in the training camp. But then Kyosuke Suzaku, a.k.a. "the Emperor," appears and challenges Robo to play against him in the practice match! In the front nine, Robo ends up with the worst score out of anyone, with three over par. He vows to make par in the back nine. The other groups hole out at the 18th hole one by one, and both schools end up tied with 13 under. Robo and Kyosuke tee off, and whoever gets a birdie on the last hole will win!
